Strawberry

outstanding — one of the highest yielders

**ONE OF THE BEST
FOR FREEZING**

**1957
CATALOG**

The Paymaster Strawberry is a variety that is absolutely a thorough-bred. It was selected from among 3000 seedling plants that were secured by crossing the Premier and Gem Everbearer. These little plants were put in a testing bed and allowed to fruit. The one that was selected was outstanding in every way and was grown and tested in the fruiting row for 4 years and it proved to be a wonderful New strawberry. It is very resistant to Red Stele and will produce a full crop of fruit where varieties like Premier and Robinson types would be a total loss. This variety was originated by B. W. Keith of Michigan.

BETTER THAN ITS PARENTS

This new thorough-bred, the Paymaster, yields extremely heavy like its mother parent, the Premier, but it produces more fruiting plants. The berries are solid Red all through, very highly flavored and are wonderful for home use and marketing. From its father parent, the Gem, Paymaster inherited an extremely long fruiting season, a glossy red color and an extreme firmness. It is perfect flowering. See page 2 for further information.

PRICE: 25 for \$1.75; 50 for \$2.85; 100 for \$4.25; 200 for \$7.70; 300 for \$10.40; 500 for \$13.95; 1000 for \$22.50; 2000 for \$43.00.

"BRILLIANT"

Plant Pat. No. 1183

EVERBEARING STRAWBERRY

PLANT BRILLIANT GET RIPE BERRIES IN 6 WEEKS

Does equally well on all types of soil but on fertile sandy loam results will be amazing. Perfect Flowering.

BEARS LARGE, JUICY BERRIES ALL SUMMER LONG

Bright Red

This sensational new Everbearer rates a winning score on every point: Larger Size. Brighter Red Color. Outstanding Flavor. Best Canning and Freezing Qualities. Greater Yield. Strength and Vigor of Plants. No other Everbearer can match Brilliant for uniformly large, top quality, bright red berries. The color is absolutely bright red clear through even when mashed or finely cut.

Superbly Flavored

The flavor is a mouth-watering, tangy, true-strawberry flavor, which most Everbearers lack. Brilliant is a superior berry for home freezing and canning—retaining its vigorous flavor, rich color and firm quality. And for fresh desserts it offers you a real taste-thrill! It doesn't fade.

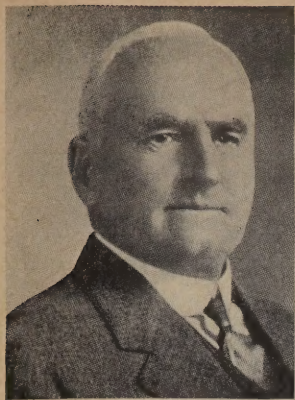

Has Everything

On tests with some of the newer and old varieties Brilliant won all records for yield and perfect bearing. It is the only Everbearing variety that will make a full fruiting row against all odds of weather. If it has plenty of moisture it will continue to bear all summer and fall. It is a perfect flowering variety. The supply of Brilliant plants this year is very limited.

PRICES: 25 for \$3.25; 50 for \$5.75; 100 for \$9.95. Postage prepaid.

*Our Personal Visit to Your Home

*AN HONEST STATEMENT ABOUT STAHELIN'S QUALITY NURSERY STOCK

This 1957 catalog apparently still finds the supply of good nursery stock throughout the country much below its normal supply. Extremely dry weather and the fact that in those sections where most of the seedling trees are produced had a killing frost 2 years ago, makes the tree shortage very acute.

The prices as quoted in our catalog are as low as good nursery stock can be produced under these abnormal conditions. We positively do not ship or handle any storage plants or trees. Stock that must be dug in advance of shipment is healed in light sandy soil which keeps them as fresh as they were in the growing field. Our 2 complete irrigation systems help us to produce perfect stock and in the past few years we have been compelled to use these systems more and more.

We are not solely in the nursery business to make money but derive pleasure in serving you with sincerity, efficiency and honor. By continuing to deal fairly with you, we hope to enjoy your friendship and business in the future.

We recommend Organic Gardening Magazine, use coupon enclosed.

STAHELIN'S GUARANTEE

We guarantee first quality stock, exactly as described in our catalog, true to name, government inspected, and to arrive in a live and growing condition. The above guarantee is made possible by the fact that all our nursery stock is inspected by authorized state men, that it is free from disease, that it is backed by 40 years of growing experience and that this stock is produced by our propagators who are skilled men with years of experience behind them.

If, however, you are not satisfied or stock is delayed by express, we ask that a report be made to us at once or not later than 5 days after arrival of same. If delayed, we ask that you get a statement from your express agent as to the cause of delay and the condition of stock.

We cannot be held responsible for losses caused by improper planting, care, or unfavorable weather conditions over which we have no control and these factors will be considered when claims are made.

DON'T WAIT TO ORDER

Our customers have been very fine in the past few years in placing their orders early. Please remember that the shipping of strawberry, asparagus and that class of plants, depends entirely upon weather conditions here. WE POSITIVELY DO NOT SHIP ANY STORAGE PLANTS. We will endeavor to fill your order as close to the time specified as possible but if excessive rain or cold weather occurs at that time of the year, there may be a slight delay.

TRANSPORTATION

Transportation Charges Not Prepaid

Unless otherwise stated in catalog, transportation charges on all stock listed in this catalog are to be paid by the customer, as the weight of nursery stock cannot be determined exactly in advance of shipment.

TERMS ON C. O. D. ORDERS

We can ship C.O.D. if the order amounts to \$5.00 or more at full catalog price, no discount allowed, but 25c on each dollar must be included with your order as a down payment. If order amounts to \$5.00, sent \$1.25 with the order; if \$6.00, send \$1.50, etc. You may inspect express shipments before you pay. (Parcel Post not subject to examination.) If satisfactory, pay the agent the amount due. No C.O.D. shipments made after April 25th.

NOTICE

For approximate shipping charges, refer to the back of our order sheet enclosed with this catalog. Complete schedules and rates, as closely as they can be figured, will be found there.

FALL SHIPMENTS

We encourage the fall planting of nursery stock. Plants and trees are dormant then, and when warm weather comes in the spring, your stock is ready to commence growing. Nursery stock cannot be shipped until it has had some cold weather to harden it up, and fall shipments are usually made after the middle of October. NO DISCOUNT ON FALL ORDERS.

KEEP ALL PAPERS

If necessary to write at any time, be sure and return all papers sent you except planting instructions. All papers pertaining to your order will be returned to you when order is acknowledged. Do not destroy them!

PAYMASTER

A GREAT NEW STRAWBERRY

A B. W. Keith origination. Selected from 3000 Strawberry Seedlings, the Paymaster is a true hybrid resulting from the crossing and recrossing of an Ever-bearing and Premier varieties. The Experimental Station at Urbana, Ill. wrote that Paymaster was one of the best and highest yielding varieties there in 1951 and 1952. The fruit was firm, large, sweet and high in flavor. Paymaster is practically immune to Red Stele and due to its hybrid background and its inbred toughness, it is able to withstand extreme temperatures and come through with flying colors. A good pollinizer, very hardy and an average plant maker.

JERSEYBELLE

PRODUCES 8000 QUARTS OF BERRIES PER ACRE

This is one of the latest varieties introduced by the New Jersey experimental station and plants are still very scarce. It originated from a cross of 4 varieties and is a large and vigorous plant but makes enough new plants to make a full matted row. The fruit is large, pointed and shiny—qualities which catch the eye of the shopping homemaker. The Clayx is large and remains green throughout the harvest. The flesh is streaked and dark red when fully ripe and has a good dessert quality. The berry is firm and a good shipper. It ripens later than the Sparkle and should be considered a mid-season variety. It is a good pollenizer and should be tried by every commercial grower.

TENNESSEE BEAUTY

VIRUS FREE—EXCELLENT QUALITY—VERY PRODUCTIVE

The Tennessee Beauty plants which we have were produced from virus free stock and these disease free plants will supply you with planting stock that makes for heavy production. The Tennessee Beauty is fast becoming known as a very desirable variety throughout the Mid-West. It ripens its berries mid-season to late and produces over a long picking season.

One of its fine points is its excellent bearing quality. Berries are of good size and are a bright glossy color that doesn't dull for some time after the berries are picked. It is very firm and is an outstanding profit maker wherever it has been tried.

PRICES:

25 for	\$1.35	75 for	\$2.95	100 for	\$3.45

Tennessee Beauty supply is short, cannot be furnished in large lots. Not Prepaid.

Red Cluster

RED CLUSTER

NEW JUNE BEARING STRAWBERRY

Red Cluster is a berry which was introduced by us a few years ago. It has large size, coupled with an extremely dark red color that extends through the entire berry. The flavor is excellent and none of its attractiveness is lost in processing. Plants are sturdy, upright, and of a very dark green foliage. It is an average plant maker. Red Cluster has a long root system and is extremely resistant to Red Stele, in fact this berry came from a location where other sorts were a 100% failure but Red Cluster came through and produced a fine crop of fruit. It was this ability which brought the variety to our attention.

Red Cluster ripens at about the same time as Premier, is an extremely heavy producer, is highly regarded by canners for processing and is a wonderful variety for garden or freezing purposes.

PRICES:

25 for \$1.50	100 for \$4.15	500 for \$10.50
50 for 2.85	250 for 6.55	1000 for 18.50

SENATOR DUNLAP

The oldest strawberry that is listed by most catalogs. It was popular thirty years ago and still is. Its popularity comes from the housewife who buys the Senator Dunlap for her garden, as it is an outstanding variety for home use and canning. The berry is pointed and the variety is hardy and a good plant maker. It is perfect flowering.

New CLUSTER BEAUTY

Cluster Beauty is a new sort which we offer again this season. It is an early variety, ripening sometimes under normal conditions at about the Premier date, but it will continue to produce fruit after Premier is gone. It has a very long picking season. The berry is very firm, quite pointed, of good size and is an extremely bright light red color throughout the entire season, making it a very desirable variety for freezing and marketing. It is perfect flowering and a fairly good plant maker.

PRICES:

25 for \$1.30	250 for \$ 5.65

Armore

Scarlet

BEAUTY

THE WORLD'S GREATEST STRAWBERRY

HUGE SIZE, BRIGHT COLOR

The size of Scarlet Beauty is practically indescribable. The plant is peculiar, in as much as it only sends out one fruit stem, but this fruit stem will have from two to three huge berries on every plant. This variety will produce as many or more quarts per acre than Premier. Fruit is outstanding due to its size and coloring. The berry itself is extremely brilliant red in color and has a large bright green calyx. This makes for beautifully appearing berries, as they always look fresh, no matter how long they have been packed. Buyers on the market marvel at the brilliant red color of this variety, coupled with the bright coloring of the calyx, which always make it command a high market price.

LATE FRUITING SEASON

Scarlet Beauty commences to ripen about the time Premier is finished. Continues to bear over a long picking season, and this semi-late fruiting brings it on the market at a time when, in most sections, there are no strawberries to be had. We believe that the Scarlet Beauty will produce more huge, first-class berries than any variety that we have ever seen. At least 100 plants should be in every garden in the U.S.A. It's a marvel in size, coloring, and appearance. No other variety has attained such popularity in so short a time.

THRIVES IN POOR SOIL

Due to its plant making ability, the Scarlet Beauty will thrive and produce a crop of berries on rather poor soil. Scarlet Beauty is a perfect flowering variety which requires no pollinizing. The plant is rather small but exceptionally long rooted. It has healthy foliage, is an excellent plant maker, and an immense producer. It should not be planted closer than 24 in. apart. Try to keep your plants two to three inches apart in the picking row as it has a tendency to grow very thick.

Qualities

Popular
PREMIER

By means of careful plant selection for a number of years, we have perfected a strain of Premier that we know will produce more plants per acre than any other strain of Premier. Our Premier is adapted to all soil and climatic conditions. The picking season is long, commencing with the first and continuing to produce large size fruit until the late varieties are practically over. Premier is very easily picked, and easily sold because of its large size. Premier is practically immune to late spring frost and if you are located in a section where such trouble occurs, you can be assured of getting a fine crop if you will plant our Premier. This is due to the peculiar plant growth which it makes, almost completely hiding the blossom and protecting it from severe cold. Berry is extremely juicy, yet quite firm, making it an excellent shipper. Comes on the market when there are practically no other strawberries. Fruit is bright showy red with a large calyx. For a big crop of fine fruit in spite of cold weather when plants are in blossom, plant Premier.

Delicious Hardy
FAIRLAND

Fairland is another one of the varieties developed by the U.S. Department of Agriculture to combat the Red Stele disease. Fairland is being grown very generally in Berrien County, Michigan, one of the biggest strawberry growing sections of the Country, as a market berry, and our growers here make very favorable reports on it. The Fairland Strawberry ripens just a few days after Premier. It is just as productive as Premier with a firmer berry. The berries

are large in size and an attractive light red color. Fairland has proved to be an excellent shipper and as it is entirely Red Stele resistant, it does particularly well in the middle and northern states. A fine variety for gardens and one of the best we know of for freezing. Berries are of good quality and the flavor is excellent. This variety is a good plant maker and one which we recommend to you for trial as we know you will like it.

Superfection

20th CENTURY EVERBEARING

The 20th Century that we offer today is not the 20th Century that was introduced about ten years ago. It is an entirely new hybrid type of berry. The berry, under normal conditions, is very

large, of a semi-dark red color, and has great eye appeal. Very heavy producer, plants running quite large and having a heavy type of foliage. Exact parentage is not known, but it looks to us like a cross of the old Rock Hill and Supreme varieties, as it has all of the good points of these two sorts. Average plant maker. Perfect flowering. We think a great deal of this new variety and are increasing our plantings yearly as we believe it is bound to become very popular for jams and jellies due to its fine flavor. Recommended for table use. **PRICES:** 25 for \$2.20; 50 for \$4.15; 100 for \$7.25; 250 for \$17.50; 500 for \$30.00. Shortage of plants makes us limit this variety to 500 to a customer.

PLANT PAT. 993

red rich

EVERBEARING

TRADE MARK

We are again adding Red Rich to our list of everbearing strawberries as a variety that every gardener should try. Red Rich is a dark red, tough skinned variety that is honey sweet. The plants grow to immense size. Given plenty of moisture during its fruiting season, the amount of berries that Red Rich produces will astonish you. Originating in Minnesota, Red Rich is very hardy. Set on good fertile soil, a good row can be produced and you will like the pleasant flavor and fine dark color of the Red Rich berries.

SUPERFECTION

KING OF THE EVERBEARERS

The superfection everbearing strawberry is of northern Michigan origination.

Continuous Bearer

It bears almost continuously from a short time after planting until cold weather arrives.

Excellent Shipper

Berries are slightly round, quite firm in texture, making them good shippers without damage. They have a very good flavor. In the common everbearing varieties, this is one of the best. It does well under all climatic conditions and we urge you to try this variety. It is of Keplinger origination, therefore guaranteed to be exceptionally hardy.

SUNRISE THE FINEST EARLY RASPBERRY TODAY

An excellent red raspberry, which is recommended very highly. It starts to ripen in Michigan the latter part of June, about two weeks ahead of Latham, and because of its habit of sending up long shoots from the bottom of the cane, which ripen later than the buds at the top, it has an extremely long picking season. About the size of Latham, and a bright red when ripening. Fine textured, juicy; does not crumble, and is very firm. Does not require expert attention to grow. Plants are vigorous and bear heavily. Easy to pick and sell.

LATHAM THE FAMOUS LATE RED RASPBERRY

The Latham is a big, late ripening, red raspberry that grows on a very stiff cane and comes on the market at a time when practically all other raspberries are gone. Very productive, it will produce from 5,000 to 7,000 quarts per acre, which is about twice as much as any other red raspberry available today. This is a superior variety which does well in all sections of the country. It is adaptable to all sorts of soil conditions, climates, and locations. Cold weather has no effect on Latham as it originated in Minnesota. A great shipping and canning berry. Produces fruit of large size, fine color, and good flavor.

The plants we offer are of the best quality and carry triple inspection certificates as being disease-free. Latham Plants are not plentiful. Have **your** plants reserved early by placing a small deposit on them.

Latham

NEW EARLY RED

Red Raspberry

The New Early Red Raspberry originated at the South Haven Experimental Station and we have been watching it carefully for some time. It has been commercially tested in this famous raspberry growing section for the past ten years. It is the earliest maturing red raspberry that we know of and comes on the market when prices are higher than the later varieties command. Plants of Early Red are upright, vigorous, hardy and very productive. The fruit is conical and light red when first ripe. It separates from the vine easily. This is important as the berries are easy to pick while firm and the harvesting can be done before they are too soft. Due to its parentage, it has inherited much of the excellent flavor of the old Cuthbert. The supply of Early Red this year is not large but our price has not been raised and you should plant a few of them as we know they will be a heavy money maker for you.

Early Red

WILLAMETTE Giant New Red Raspberry

Willamette is one of the most promising of the new Red Raspberries. It is a very vigorous grower, making a nice growth under adverse circumstances. The fruit of Willamette is very large, shaped somewhat conical, comes off the vine easily and is a beautiful red color.

Best For Canning Preserving

On tests made locally by the leading canners, their report is as follows: "The best looking Red Raspberry that we have tried. It does not crumble when canning and does not fade. We wish that we could get a great many tons of them for preserving and canning." If the canners think this of the Willamette, it has a great future. The ripening is about the same as Latham.

NEW SEPTEMBER RED RASPBERRY EVERBEARING

The New September Everbearing Raspberry was introduced by the New York State Fruit Testing Association in 1947. It is a result of a number of crossings. The plants are of a very good size and the fruit is of excellent quality and when ripened shows no signs of crumbling. One feature of the New September is that it ripens many days earlier than most other Fall-bearing varieties, thus getting a chance to mature its crop before cold weather sets in. In the Spring it is very early and will ripen before practically any other sort. Plants are vigorous and very hardy and should be a fine addition to the home garden. The variety is new and plants are still somewhat scarce, so we recommend that you plant a few in your garden for trial. Enjoy fresh raspberries practically all summer.

BOYSENBERRY GIANT THORNLESS BOYSENBERRY

Due to the many requests of our customers, we are again listing the widely advertised Thornless Boysenberry. Berries are very large, measuring two to three inches in length. Ripen ten days to two weeks before the common Boysenberry. Fruit is sweet, delicious to eat. Also a superior berry for canning, jelly, jam or mouth-watering pies. Strong growing vines which should be tied to a wire 2½ to 3 ft. from the ground. Prune severely every year.

BLACK RASPBERRIES

MORRISON

THE GIANT BLACK RASPBERRY

This variety originated as a chance seedling in northern Ohio and has attracted a great deal of attention by commercial growers because of its abnormal size. The plant is an extra strong grower, being quite free from the common black raspberry diseases. Ripens somewhat later than Cumberland and has a very dark glossy color. Berries are firm in texture and high in quality. Plants are not plentiful and price is somewhat higher than commonly asked for the old varieties, but we believe a trial planting will prove they are worth more.

PRICES—1 Year No. 1 Plants

25 for \$3.00	50 for \$5.50	100 for \$9.00
500 for \$37.50	1000 for \$65.00	

MORRISON AVAILABLE IN 1 YR. ONLY

CUMBERLAND KING OF THE BLACKCAPS

Most popular black raspberry today because of its great size, beauty, firmness and productiveness. The fruit is the largest of the black raspberry family, often measuring almost an inch in diameter. Cumberland is very hardy, will stand severe drought and cold weather conditions well, without injury. It sets a great many berries, and should be heavily trimmed to get best results. Wonderful canning berry, makes delicious pies and jelly. Commands top market prices. Almost disease free and very popular because of this quality. Able to grow on almost any soil that is not wet.

PRICES—1 Year No. 1 Plants

25 for \$2.75	100 for \$ 8.25	500 for \$34.50
50 for 4.95	250 for 19.85	1000 for 59.50

This year we offer two of the New varieties of Blackberries. Most varieties available have been unsatisfactory but the three following varieties have sufficient merit for more extensive market or home use.

NEW BAILEY

Plants are vigorous and produce a large amount of fruit. Berries are larger than average, quite firm, subacid and of good quality. Is immune to the so called "Sterility" in the Red varieties. Ripens about one week later than Hedrick about the first of August in Michigan.

PRICES: 1 Yr. No. 1 Plants

12 for \$3.35	50 for \$12.35	100 for \$17.75
25 for 6.55	250 for 41.00	

NEW HEDRICK

New, introduced from the New York experimental station. Berries are larger than Eldorado, without core, flavor subacid. Plants are very vigorous, extremely productive and hardy. Ripens in Michigan about the middle of July.

PRICES: 1 Yr. No. 1 Plants

12 for \$3.25	50 for \$12.25	100 for \$17.50
25 for 6.45	250 for 39.50	

DUNDEE OUTSTANDING NEW VARIETY VERY HEAVY PRODUCER

Dundee is an early ripening berry that you can pick 5-7 days before Cumberland. The berries are large, glossy black, attractive, moderately firm, mildly subacid and very good. Plants are tall, vigorous, productive and moderately resistant to Mosaic. This variety is well worth trying for home use or market.

PRICES: 1 Yr. No. 1 Plants

25 for \$3.50	100 for \$10.95	500 for \$38.85
50 for 6.55	1000 for 72.00	

Morrison

LOGAN EARLY SWEET BLACK RASPBERRY

An Ohio origination. Logan ripens seven to ten days ahead of Cumberland, which allows the grower to get on the market ahead of other varieties, giving him an opportunity to make some real money. Produces immense crops of jet black berries, as large as Cumberland. Does not crumble, and the last picking looks as nice as the first. Stands severe weather conditions. A great deal of its present popularity is due to its "disease-free qualities." Of high dessert quality and fine for canning.

PRICES—1 YEAR NO. 1 PLANTS

25 for \$2.50	100 for \$ 7.95	500 for \$29.35
50 for 4.15	250 for 16.85	1000 for 53.35

25 for 6.50	250 for 42.20	

New EBONY KING BLACKBERRY

First to ripen. Each plant guaranteed to bear. Ebony King is very hardy, originating in Michigan and has never winter killed here. Each plant is guaranteed to produce a large crop of extremely fine fruit which is very sweet and has very little core. In this section it is in great demand by the canners because of this feature. Due to the scarcity of blackberry plants in all of the blackberry growing regions, there is a scarcity of blackberries today and the high price which fruit commands offers growers an opportunity to make some easy money. Plant 25 or 50 Ebony King in your garden and you will have plenty of fruit from these few plants.

PRICES—1 Year No. 1 Plants

12 for \$ 3.50	25 for \$ 6.75	50 for \$12.75
100 for 18.50	250 for 39.25	

SUMMER LONG PEACH

(Patent Applied for) Something new in the peach world. Can you imagine a peach tree bearing just like an Ever-bearing Strawberry? The Summerlong Peach starts to ripen here about the 20th of July and bears until the middle of September. The tree produces a medium sized, yellow, free-stone peach of excellent quality. The flesh is sweet and tasty, and being very firm does not bruise easily. This is a real novelty and at the same time a practical one. Have fruit for over two months from the Summerlong tree. Our supply of trees is limited.

PRICES:
\$2.95 each 2 for \$5.70 4 for \$11.00

RED SKIN

The Red Skin peach is exactly as its name implies. It is an all-over red peach when it is fully ripened. A product of the Maryland Experimental Station and wherever it has been tried it is becoming extremely popular. It is a freestone yellow peach, ripening approximately with Elberta and it has a beautiful red color. The fruit is round, yellow fleshed with no appreciable red color near the pit. It has a delicious flavor and is an excellent shipping variety. On the Chicago market where it has come in competition with Elberta it has brought \$1.00 to \$1.50 more. It is self pollinizing. Our supply is somewhat limited so orders should be placed as early as possible for this variety. **PRICED BELOW.**

PRICES: Red Skin and Michigold

All trees well branched and well rooted.

11/16 4½ ft. up	1.75	8.50	16.50	37.50	70.00	120.00	220.00

Prices to commercial growers on large quantities furnished upon request, state varieties wanted.

MICHIGOLD

We introduced Michigold a few years ago as a superior mid-season variety and it has taken over tremendously where the variety has been tried. It is a larger peach than Hale Haven, carries 25 to 30% more color and its large size with this color always makes it a top market variety. It ripens between Hale Haven and Elberta and comes on the market at a time when there are practically no peaches there. It originated on the lake shores of Michigan. It is extremely hardy, it's perfect flowering and is a very healthy grower. **PRICED AT RIGHT.**

GOLDENETTE

Patent applied for.

THE PERFECT PEACH ➡

We call the Goldenette the perfect peach because we sincerely think there is no peach that is as good. This year Goldenette has proven to be the most desirable peach that we have. It's high in quality and a yellow freestone variety. It's as large as Hale, has a better yellow color and is the most wonderful peach for processing that we know of. It is almost perfectly round and has a very tough skin but when you once get through this skin, the inside is the most deliciously flavored peach that we have ever tasted.

The Finest That Money Can Buy

PEACH TREES

HALEHAVEN

Early—Excellent Shipper, Canner

Colors all red long before it is ripe, and retains its richness of flavor over a long period. Is round in shape, very sweet flavor, and ripens about a week before Elberta, Freestone. Halehaven is one of the greatest shipping and canning peaches ever introduced. It was originated in Michigan. It is hardy and self-pollinizing. One of our most popular peaches here. Wonderful for distant shipping. **PRICED BELOW.**

Sullivan's EARLY ELBERTA

New—Larger—Better—Ripens 7 to 10 Days Before Old Elberta—Sells Fast

Sullivan's Early Elberta is the new type Elberta peach that is sweeping the peach growing sections of the country. The tree is very hardy and is rapidly replacing the standard Elberta because it ripens 7 to 10 days earlier. It is identical in shape, color and flavor, but is slightly larger in size. Excellent shipper. **PRICED BELOW.**

GOLDEN JUBILEE

Sweet and Juicy—Frost Resistant

Very early. Excellent for commercial planting. Fruit is somewhat oblong in shape and has a brilliant golden color with a slightly red cheek. It is golden-fleshed, very juicy, and a free-stone. Perfect pollinizer. The tree is extremely hardy, producing fruit when other varieties are frozen. Fruit is delicious in flavor, perfect for desserts and canning. **PRICED BELOW.**

KALHAVEN

Immense—Red All Over—Good Shipper

A Michigan Peach which is a result of a cross between the J. H. Hale and the old Kalamazoo variety. Immense in size, its color and flavor are excellent. Very hardy. Fruit is large, round in shape, a beautiful red color all over, and an extremely good shipper. Ripens a few days after Elberta. Freestone and self-pollinizing. When canned presents a golden peach of outstanding flavor and texture. **PRICED BELOW.**

HON-EE-GOLD

WILL NOT DRY ROT AND IS AN EXCELLENT SHIPPER

Hon-EE-Gold is a native of Michigan—a proven variety that has all of the good points and none of the bad. We have a fair supply and to anyone who wants a peach that ripens after Elberta, we do not believe you could improve on the Hon-EE-Gold variety. It is marvelous in size, slightly on the round type. It is 10 to 20% larger than Elberta and it has a bright red cheek when it is fully ripened. Hon-EE-Gold has an excellent flavor. The inside of the peach is a golden yellow with a slight amount of red next to the pit. **PRICED BELOW.**

Halehaven

Redhaven

REDHAVEN

Excellent Extra Early Market Peach

The Redhaven peach is a Michigan origination, which makes it especially hardy. It is practically the earliest peach that we have and as it carries a good red color long before it ripens, you can pick it almost any time you desire. It is an excellent shipper. Fruit is very firm, easy to handle, bright red in color, with golden firm-textured flesh. **PRICED AT RIGHT.**

SPECIAL BARGAIN

Husky 18 to 30 Inch Trees

These trees are headed especially low and we can furnish them in all varieties listed. We will fully guarantee these trees in every way it is possible to guarantee a good tree. These trees will be in bunches of ten and we would appreciate it if you would keep this in mind in selecting varieties.

ELBERTA

Famous For Flavor—For Making Money

No other peach has ever attained the popularity of this variety. Elberta is the leading commercial peach. Very large, slightly oval in shape, it has golden yellow skin with a slight blush. Flesh is firm, fine-textured, and fruit has a rich flavor. Its thick skin makes it ideal for shipping. Excellent for canning, drying and freezing. Ripens medium late. It is freestone and self-pollenizing, also a good pollenizer for other varieties. Usually bears the third year—enormous producer at maturity. Trees are quite hardy, but may be affected by severe frost. **PRICED BELOW.**

GOLDEN ELBERTA

Sweet and Juicy—Good Eating

It is identical with the common Elberta with the exception that it is golden-yellow with a slight blush on the cheek. Same season of ripening, same size, same shape as Elberta. **PRICED BELOW.**

J. H. HALE

A peach which is highly prized because of its exceptionally large size. It is absolutely round. A yellow fleshed freestone with a slight amount of red. It is a peach which is highly recommended for fancy trade. Should not be planted in solid blocks because it is not self-pollenizing. **PRICED BELOW.**

AMBER GEM

Frost-Proof Canning Peach

A peach that is huge in size, extremely bright red in color, tinged with yellow. A clingstone variety. The tree is thrifty, bears an enormous crop, and the peach is wonderful for canning. Extremely heavy-skinned, and the finest shipping peach we have. Very hardy. Used by commercial canners almost 100%. Does not dry rot on the tree and we should like to see every grower plant several trees for trial. **PRICED BELOW.**

Elberta

WHITE HALE

Produces Every Year—Delicious Flavor

Originated on our own farm, this is the best White Peach we have ever seen. Large size, unequalled quality, freestone. Sweet as honey. Hardy, Ripens mid-season. **PRICED AT LEFT.**

SUN-HIGH

A peach that was originated in the New Jersey Experimental Station. It is a golden yellow freestone which carries an exceptional amount of high color. It is very hardy in the bud and ripens 15 days before Elberta. Has excellent shipping qualities and is a wonderful peach to eat out of hand. **PRICED AT LEFT.**

RICH HAVEN and SUNHAVEN

These are the two new peaches that are creating such a great stir in the peach field. We have received letters and inquiries from all over the U.S. for these two new sorts but as only a few trees are available we have booked no orders for same. We offer only a few trees, not more than 5 to a customer as follows:

SUNHAVEN

This variety is being introduced as a sort of the Redhaven type. It ripens TEN DAYS before Redhaven and 40 days before Elberta. Is much like Redhaven in appearance and when fully ripe is a freestone. The trees grow large, vigorous and productive. No frost damage was noted even at 19 degrees below zero.

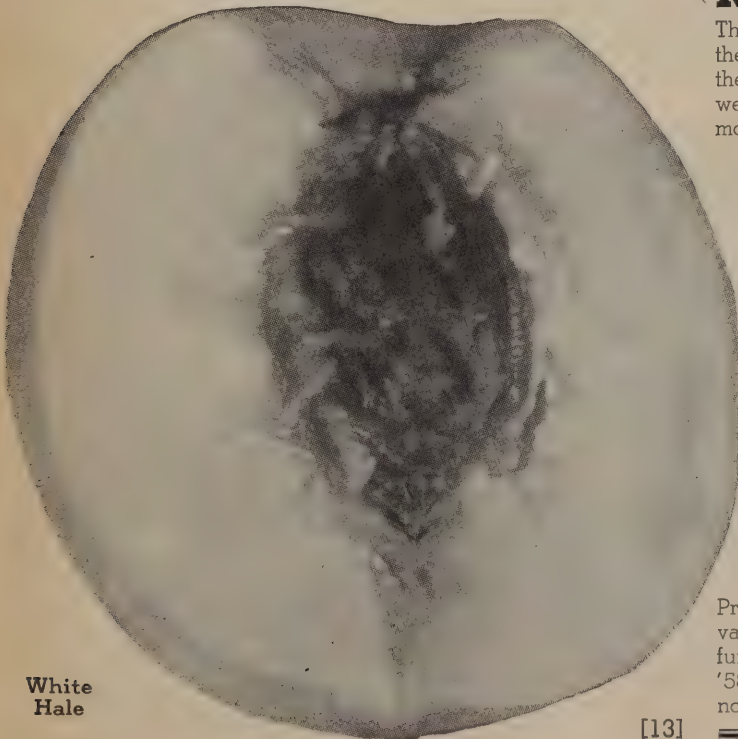

RICH HAVEN

The season of ripening is about the same time as Halehaven but because of its high red coloring it may be picked two or three days before Halehaven. Fruit is large, nearly round and very uniform. Color bright Golden with the area exposed to the sun overlaid with a bright red. Very attractive in appearance. The peach is practically fuzzless and the fuzz which is there is so short as to be hardly noticeable. The tree is very hardy.

PRICES: SUN HAVEN AND RICH HAVEN \$2.95 each; 2 for \$5.70; 3 for \$8.40; 4 for \$9.80; 5 for \$12.00.

Price Net, No Discount. Price is made on one variety, two different varieties of one each must take the single price. We will be able to furnish Sunhaven and Rich Haven in the fall of 1957 or spring of '58 in lots of 250 or more of each variety. Orders are being booked now for that time and if you are interested, write us.

White Hale

APPLE TREES

ANOKA

Quickest to bear. No long waiting for fruit. Beautiful red striped fruit. Excellent to eat fresh and makes wonderful pies and applesauce. Hardy everywhere.

BEACON

Beacon ripens in early fall, carries a lot of red color, is good size, and wherever known has crowded all other apples into the background. Bears young and having originated in the north, it is a very hardy variety.

DOUBLE-RED JONATHAN

It colors up very early in the fall, and enables you to pick your fruit a week to ten days before the common Jonathan will color up. The fruit is firm, crisp and tender.

SOLID RED WINESAP

An improved strain of the Old Stayman's Winesap. It is a large, round, cherry red winter apple. Very popular.

RED NORTHERN SPY

An improved strain of the common Spy apple. Very popular for eating and wonderful for pies and sauces.

CORTLAND

Large, dark red and good shipper. The finest of our fall apples. It is a cross between the McIntosh and the Old Ben Davis.

YELLOW DELICIOUS

This variety is identical in shape and size with the ordinary red Delicious, but is completely yellow in color. Is sweetly acid in flavor, firm, crisp and juicy.

DOUBLE-RED DELICIOUS

The tree does well practically all over the United States. Fruit is a wonderful size, is finely fleshed, juicy, and has a sweet flavor with a slight acid taste. Excellent for eating and most popular for fruit-stand purposes. Good winter apple.

WEALTHY

A fall apple, medium in size, and has a very fine flavor. Much desired for cooking and pies.

GRIMES GOLDEN

An all yellow apple. Round in shape, medium size and is quite acid in flavor. It ripens in the fall and is a good winter apple.

RED ROME

This variety is an all-red strain of the old type Rome Beauty. It is very highly prized for baking purposes. It is almost a solid red and of very large size. One of the best varieties for winter.

RED McINTOSH

A superior strain of the old type McIntosh. It is practically all red, a fine eating apple, of good size, and a delicious flavor.

R. I. GREENING

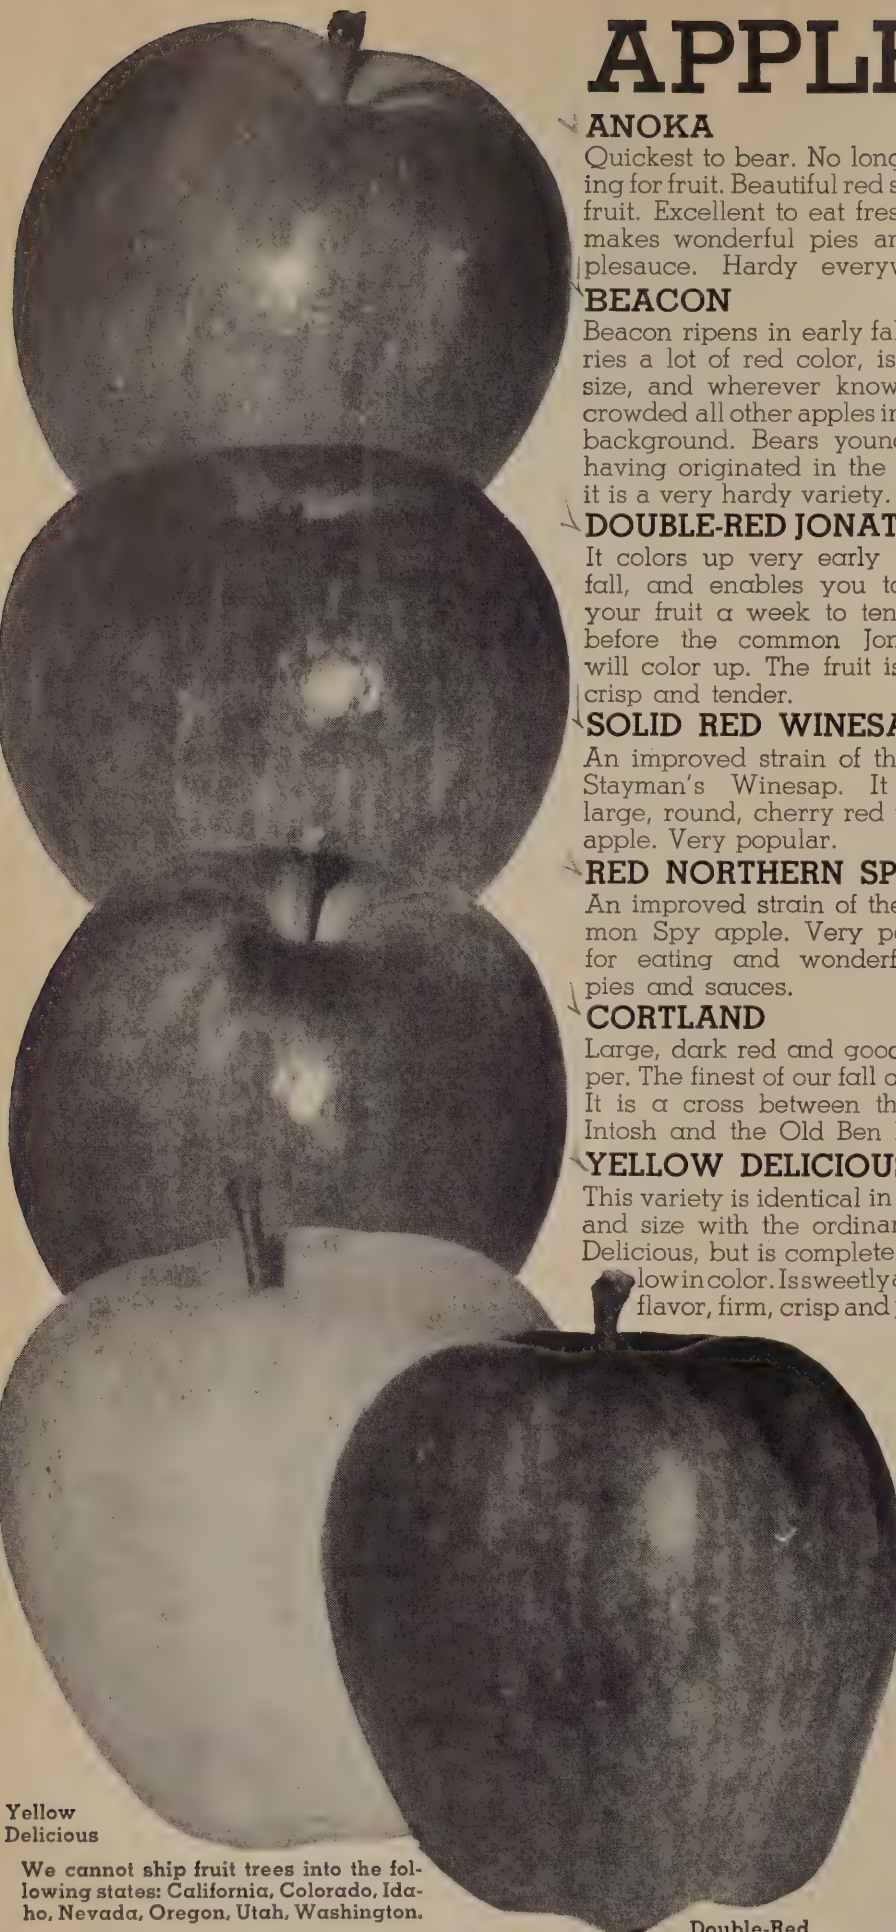

Old established sort. Yellowish green when ripe. Golden colored flesh. The best for cooking and home use.

YELLOW TRANSPARENT

This variety is good to eat long before other varieties are ready. It is yellow in color, very crisp, juicy white flesh, and has a delicious flavor.

HYSLOP CRAB

This is the only variety of crab apple that we list, as it is by far the best. Fruit is dark purple color when fully ripened and has a wonderful flavor. Used by canners for pickling, jelly, etc.

Yellow
Delicious

We cannot ship fruit trees into the following states: California, Colorado, Idaho, Nevada, Oregon, Utah, Washington.

You Pick Fruit Years Sooner by Planting **THRIFTY SUPER SIZE TREES**

If you want 6 to 12 trees and quick results, order our Super-King Size Fruit Trees! They will bear in half the time and can be furnished in almost any variety. By setting these large trees you save time, as it requires from 3 to 5 years to grow them in the nursery. The cost, naturally, is higher, but your extra cost is quickly returned to you by the fruit which is produced soon after

planting. These trees require no special culture. They must be carefully planted, however, spreading out the roots in the opening and setting them deep enough so that the wind will not blow them over. They should be carefully watered after planting and the addition of about 3 to 4 tablespoonfuls of commercial fertilizer per tree is advised.

SUPER SIZE APPLE TREES

These are large trees. They will caliper more than one inch, are heavily branched and well rooted. For varieties see page fifteen. **6-7 ft. trees, \$2.95 each; 2 for \$5.60; 5 for \$12.45.**

SUPER SIZE PEAR TREES

Pear trees do not grow to a great height in the nursery but these trees will be from 5-7 ft. in height and one inch in caliper. See page twenty for the varieties in which these Super Size Pear Trees are available. **5-7 ft. trees, \$2.55 each; 2 for \$4.90; 5 for \$11.25.**

SUPER SIZE PLUM TREES

We offer Super Size Plums in Stanley Prune only. It's the best blue plum and will bear early. **5-6 ft. trees, each \$2.25; 2 for \$4.25; 5 for \$9.95.**

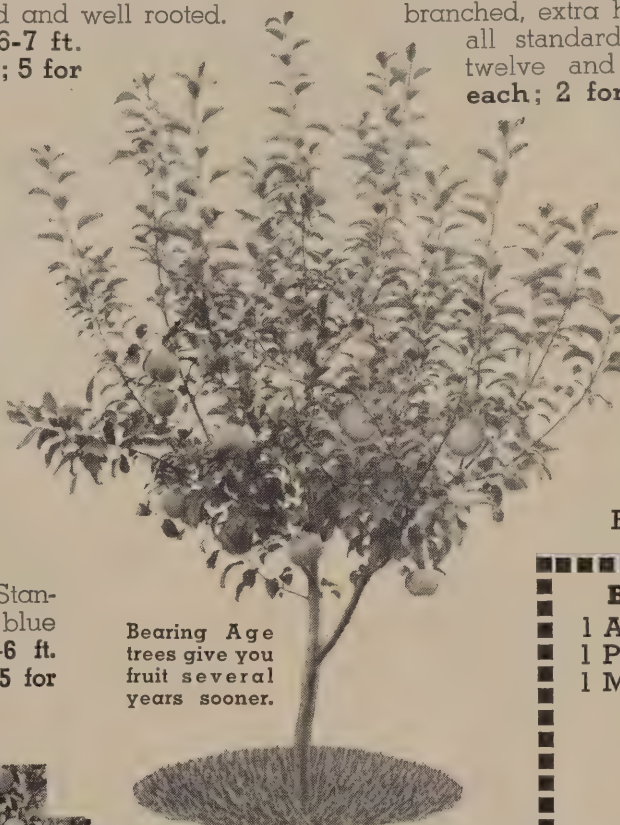

SUPER SIZE PEACH TREES

These peach trees caliper one inch and up. Well branched, extra heavy root system. Available in all standard varieties. See page eleven, twelve and thirteen. **5-6 ft. trees, \$2.25 each; 2 for \$3.95; 10 for \$17.50**

SUPER SIZE CHERRY TREES

Available in Montmorency only. Blocky, heavy-bodied, well rooted, branched cherry trees. Will caliper more than one inch. Will bear quickly. Guaranteed to be virus free. **5 ft. up, \$2.25 each; 2 for \$3.95; 5 for \$8.85.**

ALL TREES ON THIS PAGE MUST BE SHIPPED BY EXPRESS OR FREIGHT.

5 In 1 APPLE TREE

"The City-man's Apple Orchard"

The quintuplet apple is a tree that has been produced so that the small home owner, who has a restricted planting space, can have a variety of apples over a long picking season. We have budded some of the best kinds so that you will have a Double-Red Delicious, Jonathan, Winesap, Yellow Transparent, and Wealthy. These are five of the best varieties and they will bear fruit over a long period of time. The different varieties will bloom at different times and these trees can be used for ornamental purposes if desired.

These are large, 4 to 6 ft. trees, and are priced at \$2.75 each; 2 for \$4.95; 5 for \$11.95.

CAN BE SHIPPED BY FREIGHT OR EXPRESS ONLY.

Quantity lots should be ordered early, Sweet Cherries are not plentiful this year.

PLUM TREES

STANLEY PRUNE

The Stanley Prune plum is without a doubt, the finest and most beautiful blue plum that we have today. It is very large, very rich in flavor, and it is hardy in all sections of the United States. It is deep blue in color with a golden yellow flesh and it is absolutely freestone. The chief quality of Stanley Prune, other than its large size and beautiful color, is that it does not rot on the tree. It is quick bearing, often starting to bear the second year after it is planted. Excellent shipper. **PRICED AT RIGHT.**

YELLOW EGG

A plum that is egg shaped, very large size, and extremely sweet. Prized very much for culinary purposes. Trees grow very large, are very vigorous and very hardy. Fruit ripens late August. It is golden yellow; fine quality. **PRICED AT RIGHT.**

BLUE DAMSON

Most popular of all preserving plums. Extremely high flavored. Turns a rich wine-red when preserved. Small fruit, dark blue in color, rich golden interior. Highly prized for jams and jellies. Tree is hardy, bears early and is a heavy producer. Grows 10 to 12 feet high. **PRICED AT RIGHT.**

PEAR TREES

Clapp's

✓ BARTLETT

The favorite commercial pear. Fruit is very large, juicy, golden yellow in color, with a soft blush. It is quite uniform in shape. Favorable for shipping, canning, and eating.

The tree is a strong grower and produces very young. Hardy. **PRICED BELOW.**

✓ CLAPP'S FAVORITE

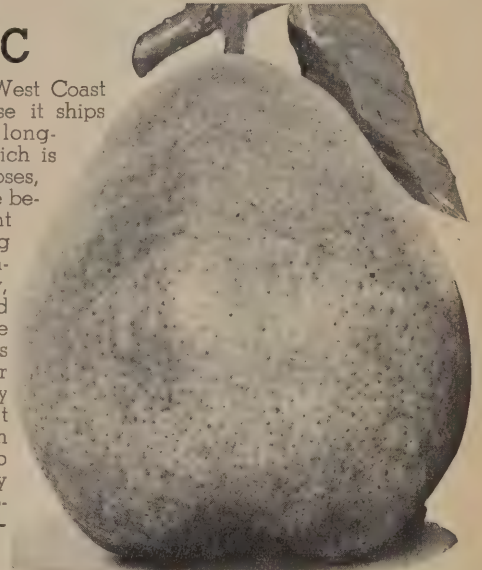

Perhaps the largest of all pears, and always tops the market because of its excellent appearance. Greenish yellow skinned with a dark red blush. Quite juicy and sweet. A good shipper. Ripens shortly after Bartlett. **PRICED BELOW.**

✓ FLEMISH BEAUTY

A pear that is honey sweet in flavor when fully ripe. Medium to large size, pale yellow colored with reddish brown cheek. Flesh is fine-grained, very juicy. Tree lives to a remarkably old age. Fruit ripens about the same time as Bartlett. **PRICED BELOW.**

✓ BOSC

A favorite West Coast pear because it ships so well. A very long-necked pear which is used for boxing purposes, but is highly desirable because of its excellent flavor and shipping qualities. Flesh is tender, buttery, very juicy, with a rich flavor and pleasing aroma. Tree bears young and is hardy. It is a rather slow grower but very productive. The fruit has a long stem which enables it to cling to the tree even in heavy winds. Ripens late September. **PRICED BELOW.**

Flemish Beauty.

PEAR PRICES: Well Rooted Selected Trees.

		Each	5	10	25
11/16	5-6 ft.	\$1.95	\$9.00	\$17.50	\$35.00

7/16	3-4 ft.	1.55	7.50	13.50	30.00

Let us quote you on larger quantities.

Bartlett

✓ LAWSON

This pear, which is about the same size as Bartlett ripens 50 days before Bartlett. It comes on the market when no other pears are to be had. It is golden yellow with a brilliant red cheek. Hardy and free from blight. **PRICED BELOW.**

✓ SECKEL

Always in market demand and equally valuable for home use. Medium sized pear; ripens late September. Delicious flavor and quality—sweet as candy. Every garden should have a Seckel. **PRICED BELOW.**

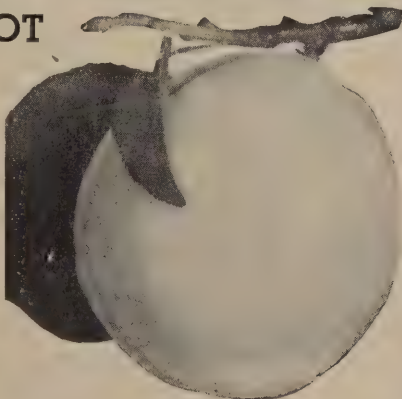

✓ Starglow APRICOT

VERY HARDY, ORIGINATING IN MICHIGAN

This marvelous apricot originated in central Michigan and is of very large size, brilliant yellow color, marvelous flavor and absolutely freestone. Especially hardy and late flowering, which is very desirable in all apricots. Starglow apricots will produce a crop of fruit for you where most of the other apricots will fail. Self pollinizing. **PRICE:** 3-4 ft. trees, \$1.75 each; 3 for \$4.80; 10 for \$14.25. 4½ ft. and up, \$2.15 each; 3 for \$5.55; 10 for \$15.95.

GOLDBECK PERFECTION APRICOT

A perfect variety for vigor and hardiness. Very uniform in size, averaging that of medium sized peach. Delicious Flavor! Rich, golden colored apricot-yellow, ripening evenly all over. Can be picked tree ripe for shipping. The finest apricot today. **Prices:** 3-4 ft. trees, \$1.75 each; 3 for \$4.80; 10 for \$14.25. 4½ ft. and up, \$2.15 each; 3 for \$5.55; 10 for \$15.95.

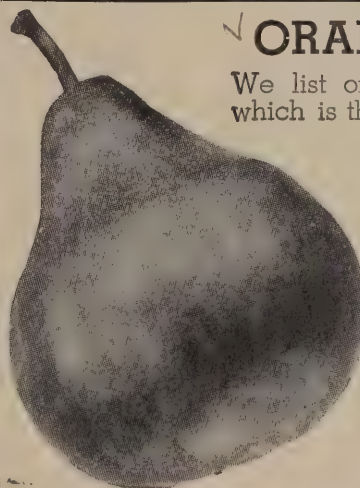

[17]

✓ ORANGE QUINCE

We list only one kind of Quince, which is the Orange variety. This is a dwarf growing tree which should be planted about 12 to 14 ft. apart. The foliage is very leathery, disease resistant and quite dark in appearance. Orange Quince is hardy in practically all sections. The fruit is as large as a good sized apple, golden yellow in color. This variety is valued very highly for preserving or jelly making.

Price: 3-4 ft. trees each \$1.75; 3 for \$5.00; 6 for \$9.00.

Full Crops of Large, Easy-to-Pick Fruit on Dwarf Trees for the Smallest Yard

New Exciting*

DWARF FRUIT TREES

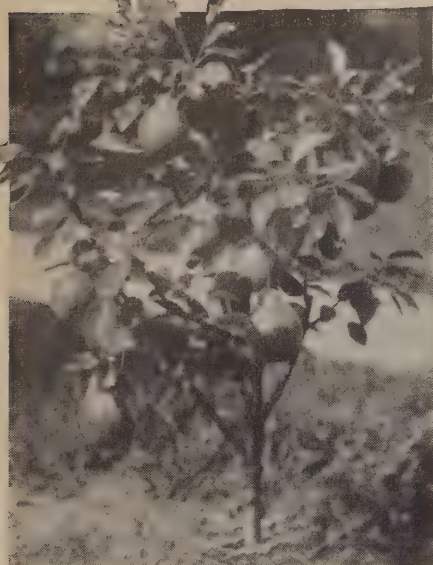

The DWARF TREE is one of the new and better things for the garden but they are being planted commercially all over the country where fruit is grown. While you are waiting for standard trees to bear, these little trees will pay for themselves. They produce the same fruit, although they will bear usually from a week to ten days earlier than the same variety on a

standard tree. Tests have been made on these trees, planting them like raspberries, very close in the rows, but these of course are experimental plots. The trees we list are all budded on special malling understock which is very sturdy and vigorous and produce a nice root system. Trees when fully developed will probably average around 10 ft. in height. They will produce from 3 to 4 bushels of fruit per season and they will do well on all types of soil where water does not stand any length of time. The supply of these trees is still limited but we do have quite a demand for them in commercial quantities so if you are interested in 50 or 100 trees, we would be glad to quote you by mail.

DWARF APPLE TREES

Our Dwarf Apple trees are hardy and productive, often bearing more fruit than standard trees of proportionate size. They are easy to prune and spray and the fruit is easily picked. We offer the following varieties: RED DELICIOUS, RED NORTHERN SPY, YELLOW TRANSPARENT, MCINTOSH AND JONATHAN. PRICES: 3-4 ft. trees, \$3.25 each; 2 for \$6.30; 5 for \$15.25; 10 for \$29.50; 25 for \$72.50; 50 for \$140.00.

DWARF PEACH TREES

If you want something entirely different, plant the new Dwarf Peach Trees that we offer for the second time this year. You can stand on the ground and pick most of the fruit from the trees. Naturally, they bear the same type of fruit as the common peach, but can be grown in smaller space. We offer RED HAVEN, ELBERTA, HALE HAVEN, RED SKIN. PRICES: 3-4 ft. trees, \$3.15 each; 2 for \$6.20; 5 for \$15.25. GOLDENETTE DWARF, \$3.45 each; 2 for \$6.40; 5 for \$15.75. Will bear second year planted.

DWARF PEAR TREES

The trees are small but the pears are big! These beautiful heavy-bearing trees are offered in three varieties—BARTLETT, FLEMISH BEAUTY and CLAPP'S FAVORITE. These varieties are the best all-purpose pears today. Foliage and size make them ideal for landscape work. Perfect for the small yard. PRICES: 2-3 ft. trees, \$2.45 each; 2 for \$4.75; 5 for \$11.50; 10 for \$22.00. 3-4 ft. trees, \$2.95 each; 2 for \$5.70; 5 for \$13.50; 10 for \$26.50.

Above is a Dwarf Delicious the 3rd season after planting. These trees bear soon, have large crop of good-sized fruit.

DWARF SAPA PLUM

Red-fleshed Plum. Delicious, sweet, and juicy. Medium size. Small freestone. Produces in coldest climates. Fruit is firm, good for canning and shipping. Plant two for best results. PRICE: 3-4 ft. trees each \$1.85; 2 for \$3.60; 4 for \$6.80.

DWARF OKA CHERRY

Larger than Sweet Cherries, the fruit is dark purplish red all the way through. This hardy Hybrid Cherry-Plum bears a full crop even in coldest climates where regular Sweet Cherries do not thrive. Sweet and delicious, fresh or canned. Small stone. Plant two for best results. Price: 2½ to 3 ft. trees each \$1.85, 2 for \$3.60; 4 for \$6.80.

Dwarf
Oka Cherry

NORTH STAR DWARF CHERRY

We offer the New North Star Dwarf Cherry as a variety that will succeed farther north than any other cherry of equal size and quality, except Meteor. The color is at first a bright red but gradually changes to a dark glistening mahogany. Fruit is juicy, tender and meaty. The stone is small and easily removed. The fruit ripening season is early, starting about the 1st of July in Michigan. The tree is small but productive and is self-fertile. PRICE: 9/16 trees 2-3 ft. in height, \$3.25 each. Two or more trees at \$3.10 each.

Giant Cultivated BLUEBERRIES

We list all of the best varieties of Blueberries. With over 50 acres of bearing plants, we can judge those that are the finest. We offer below the kinds that our experience has shown to be profitable and the fastest growing. These marvelous berries can be grown only on soil that is moist and has a slight acid reaction. Our supply of the newer varieties is limited and they cannot be furnished in large quantities. Free cultural instructions upon request.

BERKLEY Midseason

Berkley is perhaps the largest berry that we have and is a light blue color, carrying a lot of bloom. A very vigorous grower and a variety which is worthy of consideration for commercial planting anywhere. Ripens midseason. **PRICE: 2 for \$2.40; 5 for \$5.50; 10 for \$10.50.** Available in 2 yr. size only, limit 10 to a customer.

COVILLE Latest to Ripen

Ripens after Rubel, and Jersey. Large berries of good blue color and superior quality. Remain firm even when fully ripe and do not drop until picked. Thrifty plants. **PRICE: 2 for \$2.40; 5 for \$5.50; 10 for \$10.50.** Available in 2 yr. size only, limit 10 to a customer.

EARLIBLUE First to Ripen

This is an excellent variety—one of the very first to ripen. It is a good grower and we recommend it for test. **PRICE: \$1.75 each; 5 for \$7.50; 10 for \$14.50.** Available in 2 yr. size only, limit 10 plants to a customer.

BLUE CROP Midseason

Midseason ripening variety of excellent size. Has made a wonderful record on tests here in Michigan. **PRICE: \$1.75 each; 5 for \$7.50; 10 for \$14.50.** Available in 2 yr. size only, limit 10 plants to a customer.

RANCOCAS Early

The Rancocas variety of blueberry is of excellent quality, and a very good shipper. The bush does not grow as tall as Rubel, but it produces a lot of fruit over a long picking season. Always commands a good price because it is early. **PRICED AT RIGHT.**

STANLEY Early Midseason

A tall vigorous grower. Produces very large berries of wonderful quality. Bush has thick shiny leaves. A good variety as companion to Rubel and Jersey. Vigorous plants, large berries, very productive. Available in 2 yr., 3 yr. and 4 yr. old plants. **PRICED AT RIGHT.**

JERSEY Midseason

In our opinion, Jersey is superior to some of the other blueberries. The bush is very upright, vigorous, and a large producer. Fruit is enormous, very attractive, firm and sweet. **PRICED AT RIGHT.**

RUBEL Late

This variety was one of the first to be offered to the public and is still one of the best. It is a parent of many of the present hybrids. Bush is upright, vigorous, hardy, and a heavy bearer of large fruit. **PRICED AT RIGHT.**

BARGAIN NO. 6

Four fine blueberry plants which will soon bear enormous crops. Your choice of Rubel, Rancocas or Jersey.

3—3yr. old plants **\$5.15**
1—4 yr. old plant

NET, NO DISCOUNT

Almost A Full Crop In One Year With *Strong* BEARING AGE PLANTS

Do you want to pick blueberries this year and get almost a full crop next year? Plant our large BEARING AGE PLANTS. Full of fruit buds now. 24-30 in. in height and from 5 to 8 years old. RUBEL, RANCOCAS & JERSEY only. Price \$3.50 each, 2 for \$6.75. See list below for prices on larger quantities.

BLUEBERRY PRICES ON RANCOCAS, STANLEY, JERSEY, AND RUBEL

We can make special prices on blueberries in lots of 500 or more. Set 5 ft. by 10 ft. it requires 872 plants to set one acre. Only small sizes available. 4 yr. and 5 to 8 yr. plants must be shipped by express as they are too heavy for parcel post.

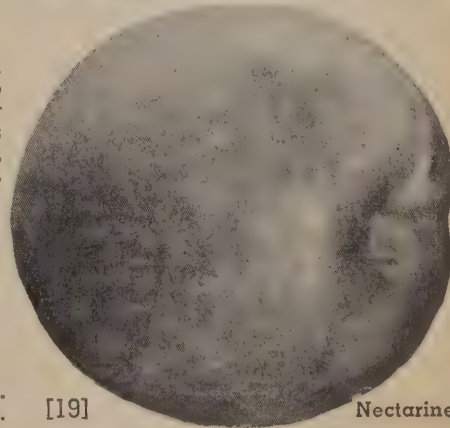

Everbearing Fig

Have Sweet, Juicy Figs in Your Garden. Our Everbearing Fig is well adapted to growing in the north. Will produce either in the field or any container in which it is planted. Fruit is good size, sweet, firm, excellent for preserving or eating. 18-24 in. plants, \$1.40 each; 3 for \$3.60.

NECTARINE

(Fuzzless Peach)

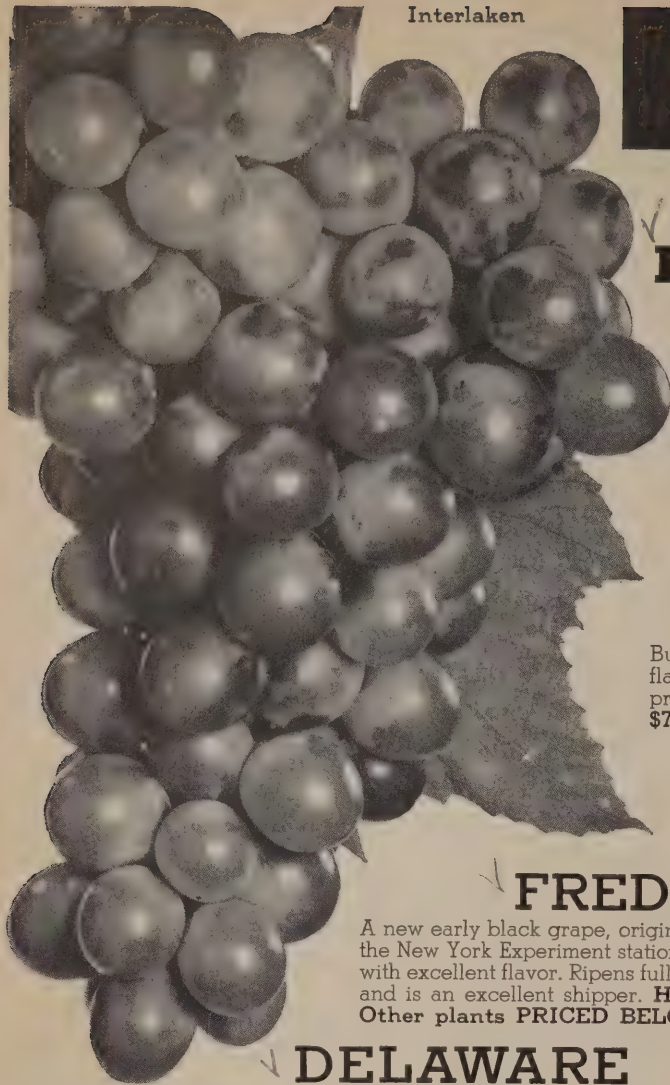

One of the most delicious of all fruits. Smooth skin of bright golden color with slightly red cheek. Hardy as peaches and require same culture. Tree is vigorous and bears young. **PRICES: 3½-ft. and up \$1.65 each; 2 for \$3.20; 3 for \$4.50.**

[19]

Nectarine

Interlaken

Grape Plants

New Grape

INTERLAKEN SEEDLESS

Greatest Dessert Grape Ever Introduced

A California type grape that is absolutely seedless and is hardy in the North. Fruit is white with a golden cast. Medium sized fruit borne on long bunches. Quality is very sweet, has a delightful flavor. We personally recommend this grape as every home should have from 2-6 bearing vines. Ripens 15-20 days before Concord. Try it. Something new and better.

PRICES: SELECTED PLANTS

\$1.45 Each

3 for \$3.75

10 for \$12.00

GOLDEN MUSCAT

Bunches are of good size, brilliant yellow in color, and have a delicious flavor. Will do well wherever the Concord grows. Excellent shipper and producer. **Prices:** 1 yr. No. 1 plants, 80c each; 4 for \$3.00; 10 for \$7.00; 20 for \$13.25.

NIAGARA

Leading commercial white grape. More productive than other white varieties. Berries are very large, and bunches compact. The quality of Niagara compares with Concord. **PRICED BELOW.**

FREDONIA

A new early black grape, originated and thoroughly tested by the New York Experiment station. Bunch and berries are large with excellent flavor. Ripens fully 10 days before Moore's Early and is an excellent shipper. **Huge 3 yr. plants, 85c each. Other plants PRICED BELOW.**

DELAWARE

Small, compact bunch. Berries are small, red, with thin skin, and unusually sweet. Ripens with Concord. Very hardy, and enormous producer. Long called the standard of excellence of all grapes as a table delicacy. **PRICED BELOW.**

CONCORD

Grows on all soils, producing enormous crops of large blue-black berries of highest quality fruit. Highly resistant to drought, insects and diseases. Ripens mid-September. America's leading wine and table grape. **Huge 3 yr. plants, 85c each. Other plants PRICED BELOW.**

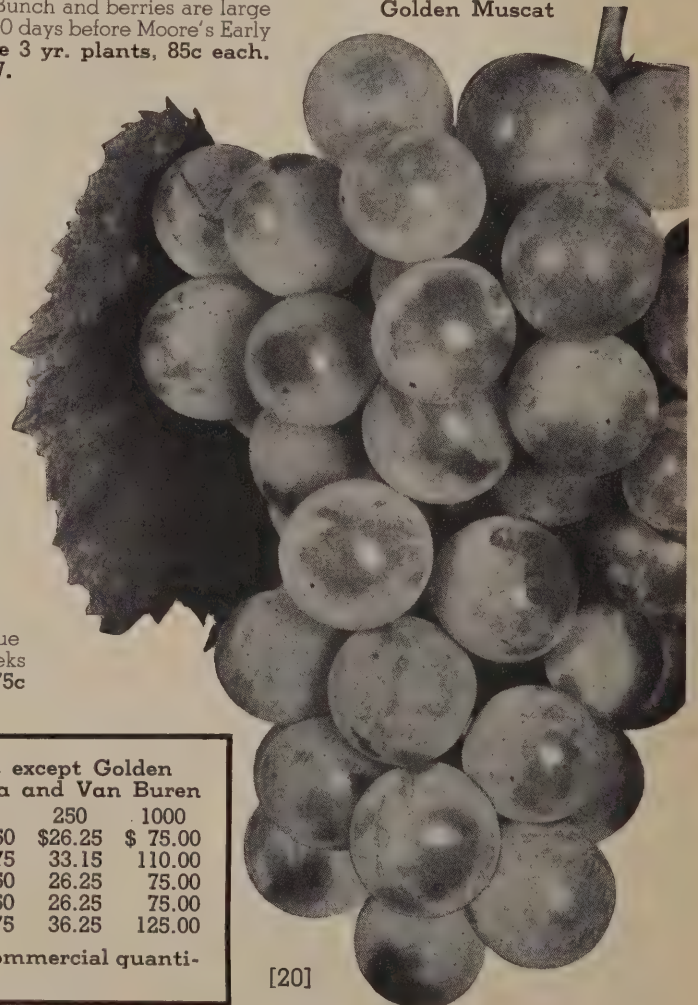

SENECA

Commonly called the skinless grapes. Golden honey colored, flavor sweet and delicious. Vine is vigorous and very productive. A fine grape for storage. **Prices:** 1 yr. No. 1 plants, 80c each; 4 for \$3.00; 10 for \$7.00; 20 for \$13.25.

VAN BUREN

Luxuriant grower, producing compact and well shaped bunches of blue black color. Exceptionally sweet. Extremely early, ripening 3 to 4 weeks before any other grape on the market. **Prices:** 1 yr. No. 1 plants, 75c each; 5 for \$3.50; 10 for \$5.00; 50 for \$17.50.

Money-Making Pedigreed ASPARAGUS Plants

New PARADISE

Early, Easy to Grow, Rust Resistant, Immense Money Maker

The New Giant Strain of asparagus. It will produce a crop one or two years sooner than will any other known variety today. It is rust resistant, producing stalks of immense size and wonderful appearance. Is easy to grow, and once planted will last 12 to 15 years with very little care. Paradise is the first asparagus to produce in the spring, and this crop is harvested early when you do not need to be bothered with other things on the farm.

Paradise asparagus offers you a great opportunity to make money. These fine large rooted plants, produced from expensive pedigreed seed, enable you to buy the world's finest at a cost no higher than for common stock. Grown on special sandy soil, fertilized and dug with special machinery to get the whole root system, we offer you a premium plant at a reasonable cost. Paradise asparagus does not require any special care. We have complete culture on asparagus, ask for it when ordering.

MARY WASHINGTON

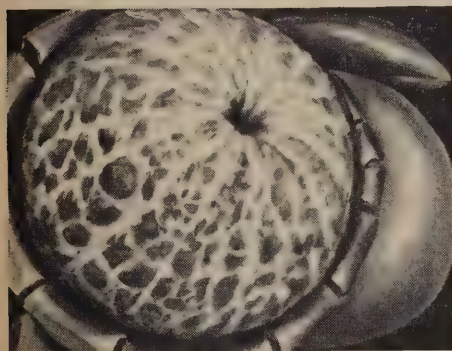

The pedigreed seed that we use produces specimen stock often more than an inch in diameter. It is very crisp and delicious. Wonderful for canning. The heads of Mary Washington are very solid and compact; thus, always commanding a better price than asparagus that has loose heads. This variety is absolutely rust resistant. Grows very fast and comes up exceedingly thick in the row, producing a very heavy crop. Approximately 5,000 plants are required to set an acre. Once planted they last for years, requiring little care. Starts to bear in Michigan in May and continues for about two full months.

Dwarf Tangerine

✓ DWARF TANGERINE

The Dwarf Tangerine which we offer is an extraordinary house plant. It is easy to grow, has beautiful glossy-green leaves and dainty fragrant flowers. These are followed by small, edible, deep orange fruits. **PRICE: Strong plants from 2¼ in. pots, 98c each; 2 for \$1.85.**

✓ DWARF LEMON

(Grows Lemons indoors on small plants.) Most unique plant ever offered for indoor culture which was originally known as the Ponderosa Lemon. Covered with waxy-white, very fragrant flowers several times a year, followed by large lemons often weighing a pound. **PRICE: 2¼ in. potted plants \$1.00 each; 2 for \$1.95.**

[21] American Wonder Lemon

Canada Red RHUBARB

The Chipman strain of Canada Red Rhubarb is the finest obtainable today. It is a decided improvement over the common Canada Red. It is a beautiful cherry red all the way through. Color and flavor sell it readily. **PRICES: Large Divisions, each 75c; 3 for \$2.10; 10 for \$6.10; 100 for \$49.00.**

Valentine RHUBARB

Newest of the red varieties. Developed in Canada and very hardy. Its large stalks are extremely dark red in color. Flesh is very tender and has a fine flavor. Produces a bright red sauce. Excellent for pies! **PRICES: Large Divisions, each 95c; 3 for \$2.70; 10 for \$8.25; 25 for \$18.75.**

MacDonald RHUBARB

A Canadian origination, it is bright cherry red the full length of the stalk. Stalks are very large and this variety is a huge producer. Plants are healthy, strong growers, producing long deep red to pink ribs of very fine flavor. Especially suitable for field growing.

PRICES: Large Divisions, each 70c; 3 for \$1.95; 10 for \$5.95; 100 for \$47.50.

Hardy Ornamental HEDGES

AMOOR RIVER PRIVET

Most Popular Hardy Hedge

Succeeds anywhere, perfectly hardy. A large dense shrub with upright branches. The handsome leaves are dark, shiny green and lustrous from early spring until late fall. Not subject to blight—resistant to insect pests. Trim to desired height and shape at any time during the summer. Leave untrimmed for foundation and screen plantings. Set bushes 9 to 12 inches apart. For very wide hedge, plant 2 rows, alternating the plants. Easiest of all privets to grow.

PRICES:

2 year 12-18 in.				
12	25	50	100	200

SPECIAL FENCING BARGAIN

We have grown a special lot of Multiflora Rose which will run in height from 12 to 14 in. and we are making you a bargain price on these in lots of 500. Enough to set a 400 to 500 ft. hedge or fence. Due to this low price, we cannot sell these plants in lots of less than 500.

WELL ROOTED PLANTS
500 for \$27.85.

BEAUTIFUL LIVING BARBED WIRE FENCE

MULTIFLORA ROSE

Low Initial Cost—No Repairs

The Multiflora Rose is a living fence, is an aid to soil conservation, and it seems to be adapted to almost the entire Country. Grown on soil of average to good fertility, it will produce a hedge in three to four years that will turn any kind of livestock except small hogs and poultry. In May or June, a Multiflora Rose fence presents a spectacle of a ribbon of bloom running over the hillside. The white or dusty pink bloom comes all at once and lasts about two weeks. Foliage appears early in spring and persists until heavy frosts of winter. Multiflora Rose is a natural habitat for game birds and wild life of all kinds.

PRICES:

25 for \$3.15	100 for \$ 9.15
50 for 5.45	500 for 40.50
	1000 for \$72.00

Stock-Proof and Well-Behaved

Multiflora Rose is offered to those who realize that they can save a great deal of money by planting this type of hedge instead of putting in posts and wire. Will grow and thrive under any conditions and does not spread from the roots. As it grows older, it continues to grow thicker and higher. Multiflora Rose, ordinarily, is planted about 12 in. apart in the row. If a tighter fence is desired, set plants 6 to 8 in. apart.

[22]

Silver Maple

Moraine Locust

Wisconsin Willow

For Beauty and Comfort, Plant HARDY SHADE TREES

MORaine LOCUST Pat. No. 836

A very fast growing improved honey locust. It is absolutely thornless and vase shaped and fast spreading when older. It thrives under city conditions. Very tolerant of smoke, soot and dust. The foliage allows enough light to penetrate so that the grass will grow directly up to the trunk of the tree. It is very hardy, seedless and will grow on heavy or light soil and will withstand drought or flood. The supply is limited. **PRICES:** 5-6 ft. each \$5.00; 2 for \$9.80; 4 for \$19.00.

SILVER MAPLE

Most rapid grower of all maples. At maturity it reaches a height from 60 to 70 feet. Dark green leaves with a silvery surface underneath, turning gold in the fall. Thrives on all kinds of soil. **PRICES:** 4-5 ft. branched trees, each \$1.45; 2 for \$2.70; 5 for \$6.50. 5-6 ft. and up, each \$1.75; 2 for \$3.30; 5 for \$7.50.

EUROPEAN WHITE BIRCH

Hardy, tall-growing, upright lawn tree of distinctive character, its creamy white bark contrasting sharply with its foliage. Will thrive on either wet or dry soils. **4½-5 ft. trees, each \$2.15; 2 for \$3.95.**

GOLDEN WEEPING WILLOW

Has golden yellow bark with narrow green leaves. Slender branches hang in a beautiful arch to the ground. Hardy, fast grower. **4-5 ft. trees, each \$1.15; 2 for \$2.10; 5 for \$4.95.**

CHINESE ELM

Fastest growing shade tree today. Extra hardy, withstands cold winters, thrives on poor soil. Useful for windbreaks, and specimen planting. **4-5 ft. trees, each \$1.50; 2 for \$2.85; 5 for \$5.65. 5-6 ft. trees, each \$1.95; 2 for \$3.75; 5 for \$8.50.**

WISCONSIN WEEPING WILLOW

A graceful tree with drooping branches sweeping the ground. Long slender green leaves and hardier than the ordinary Babylonica. Rapid grower. **4-5 ft. trees, each \$1.50; 2 for \$2.80; 5 for \$6.50.**

LOMBARDY POPLAR

Well known for its tall, slender, upright growth. Rapid grower on any soil. Dark green leaves, lighter shade on under side, roots do not clog drains. **4-5 ft. trees, each \$1.00; 2 for \$1.90; 5 for \$4.50. 5-6 ft. trees, each \$1.25; 2 for \$2.40; 5 for \$5.75.**

TULIP TREE

Tall pyramidal, with broad glossy leaves. Bears tulip-like flowers of white with green centers in June. Excellent for street or lawn. **3-4 ft. trees, each \$1.15; 2 for \$2.10; 5 for \$4.95.**

Lombardy Poplar

Golden Willow

Tulip Tree

Chinese Elm

European White Birch

CRIMSON KING RED NORWAY MAPLE

(Patent No. 735)

The Crimson King Maple is one of the most beautiful of all red-leaved trees. Grows identical with the common maple and is the same size, but has deep red leaves from early spring until late fall. Originated in Norway and is therefore entirely hardy. Creates a sensation wherever grown. These 2 yr. old trees will grow rapidly and become beautiful showy trees in a short time. Order your Crimson King Maple early as the demand exceeds the supply available, year after year. **PRICE: 4-5 ft. trees each \$4.35; 2 for \$8.25; 4 for \$16.00. NET, NO DISCOUNT.**

MAGNOLIA—Soulangeana

Magnolia Soulangeana is the most popular of the magnolias. Delightful fragrant blossoms appear very early in spring. Produces large rose-pink blooms long before any leaves appear. Reaches a height of 10-15 feet at maturity. Very ornamental. **18-24 in. trees each \$3.15; 2 for \$5.95.**

RED LEAF PEACH

Brilliant Red Foliage All Year

We offer this brilliant red-leaved tree as something quite new in the ornamental field. It is not only decorative, but produces worthwhile fruit at the same time. Its habits of growth are practically identical with the common peach, and its deep rose colored blossoms, against the red foliage, produce a very pleasant picture when set among other plantings. Fruit is white and highly flavored. Ideal for pickling. **PRICES: 3-4 ft. trees, each \$1.65; 2 for \$3.00; 4 for \$5.60. 4-6 ft. trees, each \$1.90; 2 for \$3.60; 4 for \$7.00.**

Mountain Ash

RED DOGWOOD

(*Cornus Florida Rubra*) Produces a great profusion of large rose-red flowers in the spring. Heavy with glossy red berries in the fall. Attractive grayish green foliage in the summer, turning a rich crimson in early autumn. Tree grows 10 to 15 feet tall. Well suited for small yards. Adds greatly to any landscape picture. **PRICE: 18-24 in. each \$2.25; 2 for \$4.25; 4 for \$8.20.**

MOUNTAIN ASH

A very popular tree all over America. In late summer it is laden with clusters of bright red berries against a background of lacy green foliage. Hardy and one of our most beautiful ornamental trees. May be trimmed as desired. At maturity attains a height of 18 to 25 feet. **PRICE: 3 1/2-5 ft. trees, each \$2.25; 2 for \$4.30; 4 for \$8.20.**

Red Dogwood

Unusual, Exciting Flowering Trees

White Flowering Dogwood

MULTIPLE BIRCH

These are a special strain of beautiful American White Birch. Three or more trunks from one root. Bark white on mature trees. A very beautiful tree at all times of the year. **Prices:** 3-4 ft. clumps, each \$3.55; 2 for \$6.90.

Flowering Peach

WHITE FLOWERING DOGWOOD

Large, white flowers with an extra row of center petals. Red berries in the fall, also the leaves turn red. Grows to a height of 10 to 15 feet at maturity. May be trimmed as desired. **3-4 ft. trees, each \$1.90; 2 for \$3.60.**

FRENCH PUSSY WILLOW

Silky gray catkins burst forth to decorate the brown twigs early in the spring. Branches may be cut in mid-winter for bouquets in the house. Large tree-like shrub with long narrow leaves. **18-24 in. plants, each \$1.05; 3 for \$2.95.**

BECHTEL'S FLOWERING CRAB

A hardy, small, flowering tree. Compact grower, prune as desired. Double flowers of delicate pink resembling small roses, completely cover the branches in early spring. Very fragrant. Ideal for small lawns. Distinct lobed leaves. **PRICE: 3-4 ft. branched trees, each \$2.45; 2 for \$4.60.**

Bechtel's Crab

HOPA CRAB

Most beautiful flowering crab that can be grown in the north. Absolutely hardy. Graceful, medium sized tree strikingly ornamental. Buds are blood-red, flowers deep rose colored. **3-4 ft. trees, each \$2.10; 3 for \$5.95.**

FLOWERING PEACH

Flowers appear early in spring before the tree leafs out and are very thick. Height about 15 ft. at maturity. Available in RED or WHITE flowers. State color. **3½-5 ft. trees, each \$1.50; 2 for \$2.75.**

SMOKE TREE

Purple Fringe Smoke Tree. Strikingly different shrub. Hardy and easily grown. In late summer and fall it is covered with fine, purplish, misty-looking flowers which give it a smoky appearance. Flowers are long lasting. **18-24 in. trees, each \$1.10; 2 for \$2.00.**

French Pussy Willow

DOLGO CRAB

Tree is dwarf in size but grows fast. Produces small bright red apples and the bloom is a fiery red. Bears very early in the spring and the fruit is very edible in fall and will jell easily. **PRICE: 4-5 ft. trees, each \$1.65; 3 for \$4.50.**

Hopa Flowering Crab

Smoke Tree

EVERGREENS *for Year Around Beauty*

SPINY GREEK JUNIPER

Its usual habit is narrow and columnar, with many erect branches and branchlets. Foliage is spiny, with sharp points and of a glaucous blue color. Makes a very dense growth, eventually reaching a height of 5 ft. at maturity. May be trimmed as desired.

PRICE: 10-12 in. each \$1.75; 3 for \$4.50.

HATFIELD YEW

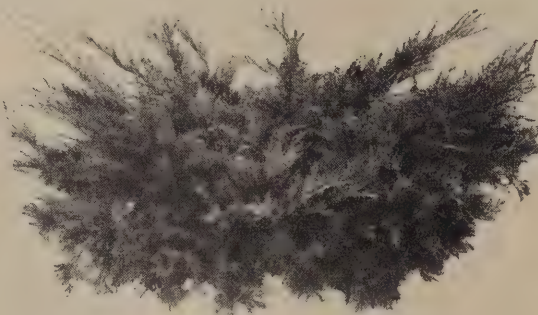

Grows in columnar erect form. Vase-shaped. Color is extremely dark green, the foliage heavy and luxuriant. Very hardy, easy to grow, and does well in shade. Somewhat resembles Hicks Yew.

PRICES: 8-10 in. transplants [26] each \$1.70; 2 for \$3.20.

COLORADO BLUE SPRUCE

The Colorado Spruce is without a doubt one of the finest of blue-type evergreen trees. It grows to a great height and is an ornamental tree of glistening silvery blue from early spring to midsummer. Originated in the cold section, it is very hardy and is perhaps the most showy and popular of all spruce trees. We have grown a fine lot of this spruce, the seeds taken from carefully selected trees so as to obtain the very finest color. **PRICE:** 10-12 in. transplants each \$1.90; 3 for \$5.40; 10 for \$16.95.

Pfitzer's Juniper

Favorite of all spreading Junipers. Low, spreading bush with plume-like branches. Beautiful silvery blue-green foliage. Very hardy and will stand considerable shade. A favorite for foundation planting. **PRICE:** 10-12 in. transplants each \$2.60; 2 for \$4.95; 5 for \$11.95.

SPREADING YEW

This type of Yew is similar to the Pfitzer. Branches out from the bottom into a low bushy formation. Can be trimmed to desired height or to fit space. Foliage dark green. One of the most popular evergreens. **PRICE:** 10-12 inch plants each \$2.25; 2 for \$4.30.

Pyramidal Arborvitae

A favorite for entrances. Grows tall and narrow. One of our leading evergreens, it grows rapidly, has a shapely pyramidal habit and is easily trimmed. Very popular in this part of the country.

PRICE: 18-24 in. each \$2.85; 2 for \$5.50; 5 for \$13.50.

Grow More Beautiful Each Year

MUGHO PINE

The leading Dwarf Evergreen. Numerous side branches begin close to the ground, spreading horizontally and turning upward in regular growth. Grow in shade. **PRICES:** 4-6 in. spread \$1.50 each; 3 for \$4.15.

We recommend to you Farm Journal, America's finest farm magazine. It will help you grow better flowers, fruit, vegetables and shrubs. A special introductory order form for customers is enclosed.

EUROPEAN LARCH ↑

This is an upright conical grower. Begins to grow at low temperature with soft, feathery light green foliage early in spring. Again in autumn it is very beautiful as its needles turn a golden color before falling. One of our best lawn trees. **PRICE:** 12-18 in. each \$1.15; 3 for \$3.25.

BABY EVERGREENS

Save Money—Grow Your Own Specimen Plants

Although these Baby Evergreens are small, they are very heavily rooted. We suggest that you plant them in your garden and grow them there for two or three years before transplanting them to their permanent location. These small evergreens are very useful in the control of soil erosion, also within a few years, they will make an adequate windbreak if planted in rows. We offer you the following varieties:

COLORADO BLUE SPRUCE.....6-8 in.
NORWAY SPRUCE.....6-8 in.
SCOTCH PINE.....6-8 in.
PYRAMIDAL ARBORVITAE.....6-8 in.

HATFIELD YEW.....4-6 in.
SPREADING YEW.....4-6 in.
PFITZER'S JUNIPER.....4-6 in.
CANADIAN HEMLOCK.....6-8 in.

PRICES: 3 for \$2.20; 10 for \$6.10; 50 for \$25.85.

Tree Type EVERBEARING BLACKBERRY

A real sensation! The Tree Type Everbearing Blackberry is a tremendous producer of good sized, sweet luscious berries—jet black in color. This Blackberry, due to its everbearing ability, will often have berries that are ripening on it when freezing weather comes in the fall. The bearing ability of this plant is so great that you can hardly believe that a single plant would have the ability to produce such a crop.

This unusual berry has been gaining in popularity the past few years and the income derived from these plants is such that those who have tried them are planning now to make additional plantings. The berry is very vigorous and the size of the mature plant is such that they should be set about 8 feet apart to enable the person picking the berries to get completely around the plant. It is advisable to prune back the tips of the young growth so as to add to the convenience of picking. Plants should have ample moisture for greatest production.

PRICES:

Plants with 12 inch tops: 95c each; 3 for \$2.70; 6 for \$5.10;
12 for \$9.60

Tuberous Begonias

HARDY GARDEN CARNATIONS

We list only the hardy type Grenadin and we can furnish you these beautiful carnations in five colors: **Triumph**—pink; **King of Blacks**—dark velvety maroon; **Golden Sun**—yellow; **Scarlet Prince**—red; **Purity**—white. They bloom practically all summer. They are wonderful for bouquets and very fragrant flowers in single, semi-double and double blossoms on the same plants at various times. Can be shipped during April and May. **PRICES:** each 50c; 3 for \$1.35; 10 for \$3.95.

Hardy Carnations

HARDY CUSHION CHRYSANTHEMUMS

The Hardy Chrysanthemum is one of the most popular flowers today, producing from three to seven hundred blossoms per plant and the bush increases in size as it grows older. Easy to grow in ordinary soil in full sun or part shade. They are a solid mass of flowers all fall until extremely cold weather arrives. You'll pick many bouquets and still these fall favorites will blaze with color. We list them in five different colors: **red, yellow, pink, white and bronze.** Our plants are all field grown and of good size and are priced right. **PRICES:** each 50c; 3 for \$1.35; 10 for \$3.95.

Giant Camelia Flowered TUBEROUS BEGONIAS

Camellia Flower Begonias should be planted in partial shade. The begonia is a most glorious flower, exquisitely colored. Flowers double and well shaped; broad leaves. Our bulbs are selected and will bloom this year. Colors: Red, White, Pink, Yellow, Scarlet and Salmon. **PRICES:** large 1½-2" bulbs: 3 for 90c; 6 for \$1.65; 10 for \$2.60.

Red
Cushion
Mum

Popular Hardy PHLOX

The Phlox that we list are all hardy field grown No. 1 plants; produced on soil specially prepared in advance for these plants and heavily fertilized. Digging them with our power digger gives them extra large root systems and gives you much more additional root system than ordinarily. They can be furnished in the following varieties:

Mary Louise—Pure white florets; large compact heads.
Salmon Glow—Flame pink with salmon. Vigorous grower.
Blue Boy—Nearest to true blue.
Chieftain—Deepest crimson.
Pinkette—Soft appleblossom pink.
Flash—Brilliant scarlet-red. Prolific bloomer.
Spitfire—Brilliant orange scarlet. Outstanding.
PRICES: 40c each; 3 for \$1.05; 10 for \$2.95.

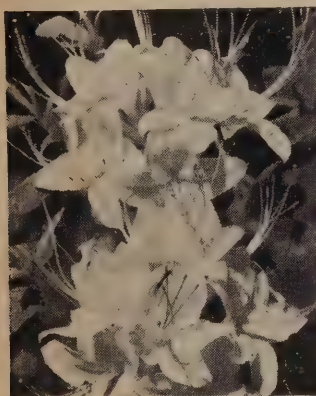

Hardy Flowering Shrubs

Rose Gardenia

PERSIAN LILAC

Graceful drooping branches with small foliage and flowers of bright purple. Blooms in May and June and reaches a height of 6 to 8 ft. at maturity. Makes a beautiful hedge when planted 2 ft. apart and trimmed to desired height. **2 yr. field grown plants \$1.10 each; 2 for \$2.10.** Heavy 2-3 ft. size \$1.50 each.

Azalea Mollis

Flowering Almond

CALYCANTHUS

(SWEET SHRUB) An old garden favorite. Fragrant shrub with chocolate colored flowers and shiny green leaves. Blooms from May until October. **Field-grown 18-24 in. each \$1.15; 2 for \$2.10.**

ROSE GARDENIA

Creamy white blossoms, very fragrant with thick glossy foliage. Grow it in pots and enjoy its beauty the year around. Very strong plants. **Blooming age plants, each \$1.20; 2 for \$2.20.**

AZALEA MOLLIS

A new hardy Azalea Mollis which stands 10 to 15 below zero without damage. Grows 3 to 4 feet tall. Blooms in May and June with striking flowers of variegated colors. Prefers partial shade and acid soil. **2 yr. field grown plants, each \$1.70; 2 for \$3.20.**

HONEYSUCKLE, PINK TARTARIAN

Bright pink flowers in spring, loads of bright red berries in the fall. Thrives in shade or sun. Reaches height of 5 to 6 feet. Very hardy. **Field grown plants \$1.00 each; 3 for \$2.75.**

FORSYTHIA

Golden Bell. Golden blossoms cover every limb and twig before leaves appear. Grows 8 to 10 ft. tall. Thrives in sun or part shade with ordinary moisture. **2 yr. plants 95c each; 3 for \$2.70.**

FLOWERING ALMOND

Blooms very early in spring, before leaves appear. Completely covered with small double shell pink flowers which resemble small roses. Grows 3 to 4 feet tall. **18-24 in. plants, \$1.10 each; 2 for \$2.10; 5 for \$4.75.**

DOUBLE FLOWERING ALTHEA

(Rose of Sharon). Large double blooms from midsummer until winter. Attains height of 6 to 8 ft. Ideal for backgrounds or borders. **Red or White. 18-24 in. plants, each \$1.15; 2 for \$2.20.**

SPIREA ANTHONY WATERER

A dwarf growing spirea. At maturity reaches a height of 1½-2 ft. Blooms most of the summer. Flowers pink and white. **2-yr. plants, each \$1.10; 2 for \$2.10; 5 for \$4.75.**

	3-4 ft. trees	
\$2.25	\$4.25	\$8.25

NATIVE BLACK WALNUT

Black Walnuts are grown from seed produced on our own farms from the Thomas Stabler, and Weir varieties. While not as thin shelled as the nuts from cultivated trees, they are excellent and you still have a better Black Walnut. Nuts are large with full kernels which are crisp and rich in flavor. Ideal for shade also. These trees are hardy anywhere in the U.S. and thrive in sunny, well-drained soil. Fast growing and long lived.

PRICES:

	3½-4 ft. trees

\$1.10	\$4.95	\$19.75	\$37.50

Black Walnut

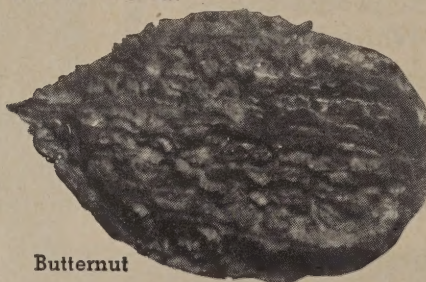

BUTTERNUT

This native nut tree grows in almost every section of the United States. Attains large size at maturity. Starts to bear very early, about 3 to 5 years of age, and will produce a crop annually. The native Butternut is a conical shaped nut that is very nutritious, carrying a very large amount of oil. Grows easily. Trees make excellent shade and you can plant them in any corner or other sections where ordinary trees cannot be produced, as they require no spraying.

All nut trees are tap-rooted and have very few fibrous roots.

Butternut

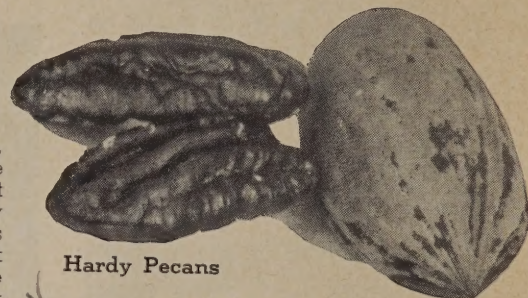

Hardy ENGLISH WALNUTS

NORTHERN GROWN - THIN SHELL

Plant Nut Trees For Profit, Beauty Shade and Pleasure

The hardy English Walnuts which we handle are all direct descendants from the original seed which was sent here from the Carpathian Mountains. Their hardiness, rapidity of growth, their long life and beauty, and finally their timber, makes them very desirable. Besides this, they produce large quantities of edible nuts and add greatly to the value of any property on which they are planted. These trees are not always fertile, therefore we suggest that more than one be planted for cross-pollination and guaranteed success.

The Carpathian English Walnut is of the paper shell type. Very hardy. Produces nuts varying in size from that of the California English Walnut to three times its size: **PRICES:** 2-3 ft. trees, each \$2.95; 2 for \$5.75; 5 for \$13.95. 3-4 ft. trees, each \$3.75; 2 for \$7.25; 5 for \$17.50.

Hardy Pecans

HARDY PECANS

We have spent a lot of time and effort to secure or locate Pecans which will be suitable for our customers. We have finally secured a source of good seed, and can now offer you a Northern Pecan which is as hardy as any Hickory nut, and should not be confused with the Southern Pecan. These trees grow naturally on overflow lands, but they will grow any place where you have good soil. They are very able to adapt themselves to different conditions. They make a beautiful ornamental tree, growing to a great height in the course of time, and will produce a wonderful crop of nuts if conditions are right.

FREE CULTURAL INSTRUCTIONS FOR ALL NUT TREES INCLUDED WITH ORDER UPON REQUEST.

Hardy ENGLISH WALNUTS

The Hardy English Walnuts have come into great popularity the last few years. These trees grow in many parts of the world, the hardiest being found in the Northern Carpathian Mountains where the temperature becomes very low. The trees that we offer are of this Carpathian variety. Practically all of our stock is of the Corsan strain, who first grew these trees in Canada and the trees that we offer are from the seed produced there.

Famous Hardy Corsan Strain

PRICES: 2-3 ft. trees each \$2.95; 2 for \$5.75; 5 for \$13.95.
3-4 ft. trees each \$3.75; 2 for \$7.25; 5 for \$17.50.

Large nut trees do not transplant readily. Therefore larger sized trees are not offered.

NUT TREE NUT BARGAIN "B"

2 Chinese Chestnut 2-3 ft.
1 English Walnut 2-3 ft.
1 Hardy Hazelnut

All four
Trees for **\$7.75**

NET, NO DISCOUNT

CHINESE CHESTNUT

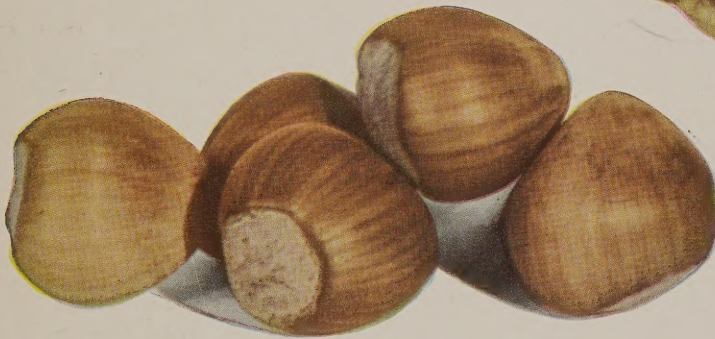

The Chinese Chestnut is absolutely blight resistant and is very hardy. It produces nuts that are of fine flavor and they are larger than those produced on the ordinary American type variety trees. They are long lived. We suggest that you plant two or more trees for best results.

PRICES: 2-3 ft. branched trees each \$2.15; 2 for \$4.05; 5 for \$9.85; 10 for \$18.65. 3-4 ft. branched trees each \$2.95; 2 for \$5.70; 5 for \$13.75.

HARDY HAZELNUTS

The Hardy Hazelnuts or American Filberts can be grown in practically any part of the United States, excepting the extreme North. The trees make a rather shrubby growth but they can be trimmed to tree size if desired. Bears very early. In the Fall the leaves turn scarlet and bronze and the bush will be completely covered with bunches of nuts. Always set two or more for best results.

PRICES: 18-24 in. trees each \$1.40; 3 for \$3.90;
10 for \$11.95.

New French Hybrid GRAPES

FRENCH HYBRID GRAPES are absolutely new but lovers of fine fruits will hear more and more about them as they become better known. These hybrids differ in flavor and appearance from common American grapes and our selection of varieties will grow in practically every state into which our catalog is sent. Plants are scarce and those available will have tops from 6 to 8 in. These new hybrids are very prolific and if grown on good soil, they will actually develop a partial crop the second year. We offer seven varieties:

- **STEUBEN**—A perfectly delicious lavender colored table grape.
- **FOCH**—Ultra-early, red-wine variety. Grows vigorously.
- **SEIBEL 13053**—Blue. Excellent for juice and jelly. Vigorous.
- **SEIBEL 5279**—Gold color. Very early. Excellent for wine.
- **SEIBEL 13047**—Very early. Blue, hardy, produces extra large grapes in huge clusters.
- **SEIBEL 10868**—Pink variety. Fine for table use. White wine.
- **SEIBEL 9110**—Golden white, mid-season. Wonderful for wine & table.

1 yr. plants \$1.49 each; 3 for \$4.15; 6 for \$7.80. Net, No Discount.

New Dwarf Peach Trees

BIG PEACHES ON SMALL TREES

No ladders needed for these trees. They are somewhat new and they bear large crops the second year after planting. Occupies a very small place in any yard and our special understocks produce a tree that never grows big. Is a beautiful ornamental tree when in full bloom. Lives a long time and produces fruit exactly like the ordinary peach.

Varieties: Red Haven, Red Skin, Hale Haven and Elberta: 3-4 ft. trees \$3.00 each; 2 for \$5.75; 4 for \$11.00. We have a few Goldenette (the Premium Peach) Dwarf trees 3-4 ft. at \$3.35 each.

Red Haven
Peach as
Produced by
The Dwarf Tree.

Schmidt's Bigarreau SWEET CHERRY

In our opinion this cherry is the finest Black Sweet Cherry that can be grown. It is a hardy strain of the celebrated Bing as raised in California. It is a deep mahogany red color. The flesh is yellow tender juicy and fine flavored. The tree is hardy, bears young and is a sure cropper. All these trees are budded and well rooted. Set two trees for cross pollination.

7/16 Cal. 3-4 ft. \$1.75 each; 5 for \$8.00; 10 for \$14.50; 25 for \$32.50; 50 for \$60.00; 100 for \$110.00.
9/16 Cal. 4-5 ft. \$2.15 each; 5 for \$10.25; 10 for \$18.50; 25 for \$45.00; 50 for \$85.00; 100 for \$145.00.

Quantity lots should be ordered early. Sweet Cherries are not plentiful this year.
